

**Use this guide to see how your imprint will look on the front of the viewer.
The default location is front and center, but please let us know if you'd
prefer your logo to be on positioned to a particular side.**

**When your order is placed, the viewer imprint file you upload
must be vectored art, such as Adobe Illustrator
or EPS format, and any text must be outlined.
We cannot use image files such as jpeg, png, or psd.**

**The actual printable area of the viewer itself
is 2.5 inches wide by 9/16 inches tall**

***Your imprint must fit within the red box below, and can then
be placed anywhere within the gray area shown.***
